

DAYCO® HEAVY-DUTY SERPENTINE BELT KITS

FEATURING EXCLUSIVE 2-PIECE TENSIONER #89947

Dayco heavy-duty serpentine belt kits feature Dayco's exclusive 2-piece tensioner engineered with an outer and inner tensioner that cuts the installation time by 50% compared to competitive products.

The kit also comes with two premium pulleys and two heavy-duty serpentine belts made from EPDM material with specially treated cords.

FEATURES:

- Pulleys and tensioner machined from high-strength steel
- Patented flat spring technology for less tension variation
- Rugged dual pressed-in pulley bearings
- EPDM belts with specially treated cords

BENEFITS:

- Cuts installation time by 50%, maximizing fleet uptime
- Lasts longer than OE – Road tested in extreme environments
- Extends belt drive service intervals
- Offers protection against premature bearing failure
- Reduces belt noise and slippage while improving performance
- Includes all components for a complete repair job

DAYCO® HEAVY-DUTY SERPENTINE BELT KITS

FEATURING EXCLUSIVE 2-PIECE TENSIONER #89947

Offering coverage for almost 650,000 VIO, Dayco's heavy-duty serpentine belt kit was developed specifically for Detroit Diesel 13, 15 and 16 series engine applications. This innovative kit helps technicians address severe installation issues and a high failure rate that occurred with the original tensioner.
