

DAYCO® HEAVY-DUTY SERPENTINE BELT KITS

Dayco's HD belt kits include all the necessary components to ensure the belt drive system performs optimally – most importantly, its ability to handle higher torque and power pulses.

Each kit includes one (1) premium tensioner, two (2) heavy-duty dual bearing pulleys, and one or two (1 or 2) diesel-grade belts treated to increase flexibility, reduce rib cracking, and to run cooler.

HD Serpentine Belt Kits Featuring 2-Piece Tensioner #89947

Cuts installation time in half, creating more profit opportunities

- More durable design with inner and outer tensioner that cuts install time 50%
- Developed for heavy-duty class 8 trucks with DD13, DD15 and DD16 series engines
- Helps solve significant installation problems existing with initial OE design

HD Serpentine Belt Kits with Original Flat Spring Tensioner Technology

Reduces premature accessory bearing failure, extending system life

- Designed for applications that require a highly engineered belt drive
- Addresses tension issues caused by fluctuation, housing separation, belt wear and stretching
- Helps prevent comebacks, reduce noise issues and enhance system performance
