

DAYCO RACING BELTS

Engineered to provide maximum performance under the most extreme racing conditions, Dayco offers three racing belts that were designed and developed using real-world track data to ensure they withstand the rigors of high horsepower race cars. Comprised of specially blended compounds that are application specific, these belts are some of the strongest, most flexible belts on the market today.

Dayco 11mm Blower Belt

Applications: Top fuel dragsters and funny cars with supercharged nitromethane engines

- Standard 11mm pitch, 84mm wide with 145 teeth
- Hybrid carbon cord encapsulated in custom rubber compounds with patented low friction PTFE tooth fabric
- Withstands some of the highest dynamic loads in racing

Dayco 8mm Blower Belt

Applications: Pro modified cars and top alcohol dragsters for pro racing purposes

- Available in multiple lengths and 50mm, 75mm and 84mm widths
- High strength Teflon-coated teeth for cogged drive pulleys
- Carbon cord construction for extreme durability and performance on the street or track

Dayco Supercharger Belt

Applications: Late model supercharged cars like ZR1 Corvettes, Shelby Mustangs and SRT Hellcat applications

- Aramid fiber loaded EPDM construction and high stiffness PET cords eliminate belt stretch
- Extreme durability and reduced slip under high boost conditions
- Imprinted with Dayco Racing logo
